

Semillas de Amor

Sharing Love, Instilling Values, and Creating Bright Futures

Semillas de Amor Post-Event Thank you email template

Here is a thank you email template you can use when thanking all the people that supported you in raising funds for Semillas de Amor. Remember to thank all the people that donated and all the people that supported you in others ways: volunteers, host committee, service providers, in-kind donators, etc.

Of course, feel free to customize and we recommend you do.

Dear FIRSTNAME,

Thank you so much for your support of Semillas de Amor and the children living there. Your support means so much to me and the children. It is important that they know people care about them. Thank you for caring!

Your support directly helps the kids have a childhood that is filled with love, education, values, and happiness. Everyone knows that your childhood has a big impact on your whole life and your support is creating the proper foundation for these children to thrive and become compassionate, responsible, and contributing adults.

If you haven't already, make sure you "Like" the Semillas de Amor page on Facebook (<https://www.facebook.com/SemillasdeamorGuatemala>) and share it with your friends and family. The more people that know about Semillas de Amor and the kids the better!

I know that making a difference for others brings joy into our lives. I hope that you feel that joy now knowing that you have made a difference in the future of these special children. We are so grateful for people like you!

With much gratitude,

YOUR NAME
